

Notice

21 March, 2006

**Notice of an Upgrade Service for the FinePix S3 Pro/S2 Pro
For customers using the camera
with a Nikon AF-S DX VR Zoom-Nikkor 18-200mm f/3.5-56G IF-ED lens**

Thank you for always using FinePix products.

This notice is to inform you that the problem described below may arise if you use your FinePix S3 Pro/S2 Pro with the Nikon AF-S DX VR Zoom-Nikkor 18-200mm f/3.5-56G IF-ED lens.

Phenomenon

When the zoom is set to the wide-angle position, if you attempt to focus using AF (Auto Focus) when the distance scale is set to infinity (∞), the camera may very occasionally fail to focus on close-up subjects.

This problem is due to a partial incompatibility in AF control at short distances between the Nikon AF-S DX VR Zoom-Nikkor 18-200mm f/3.5-56G IF-ED lens and the FinePix S3 Pro and S2 Pro.

Accordingly, to provide full compatibility with the above lens, an upgrade service is being implemented for the FinePix S3 Pro and S2 Pro.

Note that this upgrade is not required by anyone not using the AF-S DX VR Zoom-Nikkor 18-200mm f/3.5-56G IF-ED lens.

Scope of Upgrade Application

FinePix S3 Pro

Cameras with body numbers (on the bottom of the camera body) that precede the following numbers:

61L10001, 61W10001, 61O10001, 61Q10001, 61A10001

This does not apply to cameras outside the above range.

富士攝影器材有限公司
FUJI PHOTO PRODUCTS CO., LTD.
A member of CHINA-HONGKONG PHOTO GROUP

Scope of Upgrade Application (continued)
